LYDALL AFFINITY INTRODUCES FLEXIBLE DESIGN NEW 'S-SERIES' PORTABLE AIR-COOLED CHILLERS

MANCHESTER, CT – March 24, 2010 – Lydall Affinity, a division of Lydall, Inc. (NYSE: LDL) based in Ossipee, NH, has introduced a new line of portable air-cooled chillers. The new 'S-Series' of chillers feature a flexible, scalable design concept allowing the customer to match the system configuration to their cooling application.

Two models of the S-Series are available: either 1kW or 2kW cooling capacity. Both units offer customers numerous benefits including:

- easy to operate LCD user interface
- various communications options (Ethernet, RS-485, RS-232, and more)
- multiple pump capabilities
- global voltage compatibility

Bob Sandberg, Director of Sales, Marketing and Service at Lydall Affinity, commented, "The modular design of the new S-Series product line allows flexible configuration that provides an optimal solution to customers. These units will be popular in a wide variety of industries and applications."

The S-Series represents a more 'off-the-shelf' short lead time option from Lydall Affinity, who is long known for providing custom designed chiller solutions. As with all of its products, the S-Series chillers are backed by Lydall Affinity's worldwide service and support network.

Complete specifications and information on the new S-Series chillers can be found at www.lydallaffinity.com.

About Lydall Affinity

Based in Ossipee, NH, Lydall Affinity designs and manufactures a broad line of high performance chillers and heat exchangers. Affinity brand refrigerated chillers cover a heat load range of 1 to 300kW and the Company's water-to-water units offer even higher heat removal capabilities.

The Company provides both air and water-cooled units with a variety of pumps, safety and controller options. Key industries served include semiconductor, laser/photonics, medical/pharmaceutical, food processing and plastics manufacturing. For further information on Lydall Affinity, contact the company at:
